

Sciatica and Vertigo GONE

Back Pain, Ear Aches, Stomach Issues BETTER

The Johnsons came into Higher Health experiencing a number of issues. Laurie dealt with **back pain, sciatica, vertigo, stomach issues, ear aches, sinus issues and chronic colds**. She states that the pain was very severe. Russell also dealt with severe sciatica. Laurie saw her doctor and an ear specialist for her health concerns, but no one offered a solution that helped very much. When the Johnsons first came into the office, they had doubts that chiropractic could help. However, they decided to give it a try. After being under principled chiropractic care, **Laurie's back pain, ear aches, and stomach issues are BETTER! Not only that, but her vertigo and sciatica are gone!** Russell is also doing better under chiropractic, his sciatica is gone! The Johnsons are doing amazing under principled chiropractic care, and their bodies continue to heal from the inside out! They absolutely recommend chiropractic to others struggling with different health concerns.

"The doctors at Higher Health are very good at what they do!"
